Ref.: Illegal Membership of Germany in the UN  
Conspiracy against Germany

Ladies and Gentlemen, Members of the Jury,

under the title Membership I found the following entry on the internet site of the UN:

„Germany

The Federal Republic of Germany and the German Democratic Republic were admitted to membership in the United Nations on 18 September 1973. Through the accession of the German Democratic Republic to the Federal Republic of Germany, effective from 3 October 1990, the two German States united to form one sovereign State.”

After my knowledge this entry is not true, because the historical fact is that Germany since May 1945 is nothing but a zone of occupation of the allied victorious powers. In short: since 1945 Germany has never been a sovereign State or a Democracy until 2021. I cannot believe that a state without sovereignty can become a member of the UN.

The evidence for this declaration is easy to show, if you please have a look on the following table showing the declarations of war against Germany from 1933 to 1945:

### **Books for backing the evidence:**

#### **Peter Orzechowski : "Besatzungszone." Dr. Mattes Haug: „Das Deutsche Reich”**

Members of the jury, without Russia not a single of the above mentioned States has offered a peace contract to Germany during the past 75 years. These facts show that Germany has no sovereignty at all, thus cannot be an equally entitled member of the international community of nations. Business contracts based on international laws are invalid since 1945, if a state of sovereignty is required.

You will have to agree, that the refusal of peace contracts with Germany during a time of more than 75 years is not only a disparaging treatment but an act of utmost hostility against Germany. Further it is an action of warmongering and directed against the peaceful living of the people of the world. Members of the jury, as far as I can judge on the above mentioned facts, all this is well known by the members of the UN.

Another problem is the „Enemy State Clause” against Germany.

The Enemy State Clause is a passage of article 53 and 107 as a half sentence of article 77 of the UN Charter. Thus all "enemy nations", those which have lost Second World War, will face consequences for

"aggressive behavior" from the other UN states.

This clause is valid from 1945 until today. The only difference is that at the beginning in 1945 there exist only about 60 States on earth while the UN shows more than 190 members today. Thus not only 60 but 190 states show a hostile behavior against Germany and can do what they want with Germany if necessary. It is thus possible to maintain since decades around the world that all German people are not humans but animals and mass murderers for ever.

It is quite clear that these facts have to be considered not only as a „Conspiracy against Germany”, but as a conspiracy against the peace of Europe and the peace of the whole world as well. Therefore I simply ask you to put this case on the table of the assembly of the UN to work for a peaceful solution to end the slavery of the people of Germany. After more than 75 years the behavior of the allied victorious powers is blatantly unjust and should be altered as soon as possible.

This is obviously a very complicated case and I want to draw your attention to the paragraphs of the following laws:

#### 1. **The Hague Land Warfare Convention**

#### **Art. 47. Pillage is formally forbidden.**

Commentary by D. Rüggeberg: As a country in occupation state it is clear that Germany has never seen one single piece of its important inventions during the last 75 years of occupation (Example = Magermotor of Audi in 1990). This auto engine was able to save about 2/3 of the normal petrol consumption of a motor car and thus was able to solve a very big part of the so called climate change the world is complaining about today.

My question is: **Where has this important German invention vanished and who is responsible?**

#### 2. **Geneva Convention of 1949**

#### 3. Vienna Code of the Law of Treaties 1986

*Article 52 - Coercion of a State or of an international organization by the threat or use of force*

A treaty is void if its conclusion has been procured by the threat or use of force in violation of the principles of international law embodied in the Charter of the United Nations.

#### **What I expect from you is the following:**

1. Germany is no sovereign State. I assume that sovereignty is a precondition for the membership in the United Nations and other international organizations. For this reason I ask you to work for the immediate exclusion of Germany from the membership of the United Nations, the NATO and other similar international organizations which require sovereignty as presupposition for a membership.

2. To bring the fact to the attention of the assembly of the United Nations that Germany is in the state of warfare with at least 50 nations since 1945, and that this fact requires efforts to end this situation of occupation for the sake of world peace and human behavior. This should occur as soon as possible.

3. To work for the cancellation of the „Enemy State Clause” against Germany, which is more than inhuman after a time of more than 70 years. Otherwise I have to assume that the United Nations is striving for war instead for peace.

4. If it is within the scope of your authority the present Slave-Government of Germany should completely be replaced, because it works in a hostile manner against the people of Germany.

If you are not competent for this case please give me an address to which I can address my letter for further activities. Thank you for your attention, and please send me an information about your decision to care about the mentioned problems..

Moreover I would like to receive a note of receipt of this letter within about 4 weeks.

May the Godhead bless your decisions.

Sincerely,  
Dieter Rüggeberg
